

Speaker Bio

Helmut Lurtz is a legal counsel in the fields of data protection, data and IT law. Currently, he works as a legal counsel in the data protection department of an international automotive company. Prior he was a research assistant at the University of Kassel, where he especially focused on employee data protection law in Germany. Within his project activities, he has been working in interdisciplinary teams, especially on the implementation of human-focused cyber-physical systems in the industrial IoT (MyCPS) and diagnosis/e-assistance systems based on a VR/AR-system for ophthalmic diseases (IDeA). During his time at the GRK 2050 privacy and trust, he worked on organizational models for intermediaries in the corporate environment.
